Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

The amendment filed on May 2, 2007 has been considered but is ineffective to place the application in condition for allowance and an action on the merits follows.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 4, 11, 13, 14 and 16-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. As noted in the previous Office Action (12/28/06) regarding to claims 4 and 21, the recitation "the horizontal member" is not clear, i.e. horizontal to what? The elongated slot or the woodworking tool? Examiner notes the recitation, "horizontal" is relative and dependent upon an initial position, because no initial position is positively recited as it relates to a coordinate (x-y) system, merely reciting "a horizontal member" without positively stating to what the member is horizontal to is not clear. Examiner suggests positively recited the structure to what the horizontal member is connected to.

Response to Arguments

Applicant's arguments filed May 2, 2007 have been fully considered but they are not persuasive. Applicant argues that the 35 U.S.C. 112 rejections as it relates to claims 4 and 21 regarding the recitation "a horizontal member" are not unclear and are instead clearly defined

Art Unit: 3725

because the disclosure positively defines the horizontal member as a horizontal plate and as such it is a name of a part. This argument is not found persuasive, because horizontal is defined as parallel to, in the plane of, or operating in a plane parallel to (Merriam Webster On-Line Dictionary), because no initial surface or plane is positively recited within the claims, it can not be clear to what the "horizontal member" is horizontal to. Accordingly the rejection is proper and stands.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
